

Customer Identification Flowchart

Multi-Level Matching Procedure (Excluding Fuzzy Matching)

Identifier Hierarchy Table

Level	Identifier	Type	Confidence	When to Use
1	PAN	Exact	Highest	Government-issued; unique per person in India
2	Email	Exact	High	Unique per user; rarely shared
3	Mobile Number	Exact	High	Unique per SIM; stable identifier
4	PAN + Mobile	Composite	High	Both must match
5	PAN + Email	Composite	High	Both must match
6	Mobile + DOB	Composite	Medium	Reduces false positives
7	Email + DOB	Composite	Medium	Reduces false positives

8	No Match	—	—	Create new customer or route to manual review
---	----------	---	---	---

Flowchart

✓ MATCH
Confidence: HIGH

Not found

Level 4: PAN + Mobile
Both available? Search PAN, verify Mobile

Both match?

✓ MATCH
Confidence: HIGH

No

Level 5: PAN + Email
Both available? Search PAN, verify Email

Both match?

✓ MATCH
Confidence: HIGH

No

Level 6: Mobile + DOB
Search Mobile, verify DOB

Both match?

✓ MATCH
Confidence: MEDIUM

No

Level 7: Email + DOB
Search Email, verify DOB

Both match?

✓ MATCH
Confidence: MEDIUM

No

Level 8: NO MATCH
Create New Customer OR Manual Review

Simplified Linear Flow

```
START (Policy record: PAN, email, mobile, DOB)
|
v
[1] PAN valid? --> Search by PAN --> Found? --YES--> MATCH (HIGH) [END]
    |
    |                               --NO--> continue
    v
[2] Email valid? --> Search by Email --> Found? --YES--> MATCH (HIGH) [END]
    |
    |                               --NO--> continue
    v
[3] Mobile valid? --> Search by Mobile --> Found? --YES--> MATCH (HIGH) [END]
    |
    |                               --NO--> continue
    v
[4] PAN + Mobile? --> Search PAN, verify Mobile --> Both match? --YES--> MATCH (HIGH) [END]
    |
    |                               --NO--> continue
    v
[5] PAN + Email? --> Search PAN, verify Email --> Both match? --YES--> MATCH (HIGH) [END]
    |
    |                               --NO--> continue
    v
[6] Mobile + DOB? --> Search Mobile, verify DOB --> Both match? --YES--> MATCH (MEDIUM) [END]
    |
    |                               --NO--> continue
    v
[7] Email + DOB? --> Search Email, verify DOB --> Both match? --YES--> MATCH (MEDIUM) [END]
    |
    |                               --NO--> continue
    v
[8] NO MATCH --> Create New Customer OR Manual Review [END]
```

Note: Fuzzy name matching has been excluded from this procedure per requirements. All matches require at least one strong identifier (PAN, Email, or Mobile).
